DETAILED ACTION

Allowable Subject Matter

1. Claims 1, 3-7 and 9-11 are allowed.
2. The following is an examiner's statement of reasons for allowance: Applicant's arguments are persuasive (regarding the combination of the references) and the amendments to the claims have distinguished the claimed method from that of the prior art. Specifically the closest prior art, Yoshiyuki et al., discloses a separate noble metal adding step that is precluded from the claim and results in a different structure than the claimed perovskite-type composite oxide containing a noble metal supported on theta-alumina and/or alpha alumina.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
